BOE Report
March 14, 2017
Megan Paliotti, Director of Special Education

Counseling Plan- The District Level Team had a planning meeting on 3/9/17. It was determined that summer work will be needed to coordinate the building and district teams in order to develop a cohesive plan.

Extended School Year- We will have a special education summer school program for students who have special class as their program on their Individualized Education Program. In order to qualify for this program, students must demonstrate significant need or regression during school breaks throughout the school year. These students will attend a 6 week program, focusing on literacy, math, and their IEP goals in order to prevent regression over the summer. Therapies will be provided as stated on their IEP. I am currently gathering information regarding student numbers and needs in order to plan for staffing needs for this program.

Supplemental Speech Services- A letter has been sent to parents of students who have not been receiving speech due to the speech therapist vacancy. This letter explains that we would like to offer speech over the summer and is design to gather data about how many parents would be interested in sending their students in for this service. Based on the response, we will design a program to meet the students' needs who will attend. We will need to provide transportation for these students.

Staffing- We continue to have a 1.0 speech vacancy. We are currently in the hiring process for the 1.0 psychologist position.

Parent Participation
Committee on Preschool Special Education Meetings- 80%
Committee on Special Education Meetings-68%

English Language Learners
-26 students currently qualify for services

Student Movement- 2/7/17-3/7/17
