North Rose-Wolcott CSD
BOE Report for 2015-2016

Building Administrator Paul Benz, NRW HS

Date of Meeting April 12, 2016

SIP Goal #1: All North Rose-Wolcott High School students will demonstrate improved academic achievement and increased college and career readiness.

Progress Narrative:

We have been collecting and reviewing lesson plans of teachers. These plans are then woven into the conversations with staff members during our coaching (LL) meetings.

After the 25 week mark, we identified members of the Class of 2016 who were in danger of not graduating. Counselors, ALC staff members, and administrators contacted students and parents. Additionally, a letter was mailed home to families of students in danger.

At the same time we targeted five 9th grade students who are severely at-risk both academically and behaviorally at this point in their schooling. We held meetings which included parents, student, counselor, and administrator. We received teacher input to assist.

30 week grades will be used to identify students:

- who are on the line for passing or failing 2 classes or less
- who are on the line for being college and career ready benchmarks
    - Projected 75 on ELA and projected 80 on Algebra (or any math exam)
    -
