Members of the Board
of Education at
North Rose - Wolcott

BY:

I am withdrawing my interest in your junior Varsity Softball position. I am pleased that you are adhering to the 1991 mandate of fingerprinting all prospective school employees. I was employed prior to this mandate by your district. I have also worked in the Lyons and Red Creek School Districts.

I have been in education as a teacher, coach and as a referee. I have been working with children since 1969. Students have always been my first priority. I am still a substitute in my home district at Clyde - Savannah.

I was a judge in the Town of Savannah and the only ones that got fingerprinted were offenders of New York State laws. I have nothing to hide from fingerprinting, but the principle of this procedure makes me feel like a criminal - this is why I am withdrawing my application for coaching in your district.

I applaud you for protecting the students' interests at North Rose - Wolcott. Keep up the good work. At the age of 69, I have no interest in the whole fingerprinting process. Thanks for the job that you do for the students at NRW.

Sincerely,
Robert A. Crumb, Jr.
