

Renewable Energy Commercial

-Teamwork – proof of both partners working

- Work efficiently – DON'T WASTE TIME!

-Requirements for details

- Explain the renewable energy in a way that the person watching it needs little to no prior knowledge of that renewable energy to understand what you are talking about

- Describe how it works

- Show both pros and cons

- Spend your time promoting your choice instead of bashing the one that you didn't pick

- Professional Looking

- Explain the cost benefits of the resource you chose

 - How much it costs to install, how long to recoup costs, benefits available to help pay for installation, etc

- Community perspective

- Location of the product
