Unit Overview

Unit Title

Reading Nutrition Labels

Unit Summary

Students will be able to read and understand the main parts of a Nutrition label in order to make healthy food choices.

Subject Area

Home and Careers

Grade Level

7th

Approximate Time Needed

(10) 40 minute classes

Unit Foundation

Targeted Content Standards and Benchmarks

1. Students will use an understanding of the elements of good nutrition to plan appropriate diets for themselves and others. They will know and use the appropriate tools and technologies for safe and healthy food preparation.

Student Objectives/Learning Outcomes

Able to choose healthy foods by reading the nutrition label

Understand how to make substitutions in food choices to make it healthier

Can find the six essential nutrients needed on the Nutrition Label - protein, fat, carbohydrates, minerals, vitamins and water

Curriculum-Framing Questions

Essential QuestionHow do we decide what foods we will eat?

Unit How can a nutrition label help you make good food choices?

Questions What information on a Nutrition Label might be helpful to you when choosing a

certain food?

ContentWhich essential nutrient(s) should be consumed in limited amounts?
Questions
Which essential nutrients are considered to be the "good nutrients"?

Assessment Plan

Assessment Timeline

| Before project work begins | | Students work on projects and complete tasks | | After project work is completed | |
|----------------------------|---------------|--|---|--|--|
| • K-W-L Charts | • Questioning | Graphic Organizers Questioning Food Journals | Peer Share Student work or worksheets | Questioning Graphic Organizers | • Finished Projects – Pizza Boxes with Labels |

Assessment Summary

Before the project begins, I will assess the students' knowledge with the use of questioning and K-W-L Charts. While working on the project, the students will keep food journals that list the foods they eat as well as nutrition information that I have requested. They will analyze their choices using teacher made worksheets/graphic organizers. Questioning and Peer Share will be used as well to prompt further thought on the subject. After the Project is completed (Pizza Boxes with Labels made based on the ingredients they used), each student will be able to use graphic organizers to evaluate which group made the healthiest pizza based on the group's labels.

Unit Details

Prerequisite Skills

Knowledge of the 6 Essential Nutrients, graphic organizers

Instructional Procedures

Plan Lab - in groups of 4

Gather ingredients - what the groups have chosen to make their healthy pizzas

Save labels - will be used to make calculations for each pizza

Make pizzas

Design Pizza Boxes - to advertise their pizzas

Use ingredient labels to calculate nutrition information – using graphic organizers and calculators to calculate the amounts of each nutrient and part of a label

Make a video commercial "selling" their pizzas to others

Peer evaluate to discover who's pizza is the healthiest based on the labels

Accommodations for Differentiated Instruction

Resource Student Work with a partner, use of calculators and graphs, teacher proximity (ease of help), extra time

| 11011114111 | Provide visuals (text, picture and graphs), model activities, group with others who are verbally/communicatively strong | | | | | |
|---|---|--|-----------------------------|--|--|--|
| 0co | Allow ability to go deeper in the material, pair with a student who may need the extra help, group leader, become an expert | | | | | |
| Materials and Resources Required For Unit | | | | | | |
| Technology – Hardware (Click boxes of all equipment needed) | | | | | | |
| ☐ Camera | | ☐ Laser Disk | ☐ VCR | | | |
| ☐ Computer(s) | | □ Printer | | | | |
| □ Digital Camera | | ☐ Projection System | ☐ Video Conferencing Equip. | | | |
| □ DVD Player | | ☐ Scanner | ☐ Other | | | |
