9:00 – 10:00   Technology Trends: "Today's Technology is Tomorrow's Routine" – Kelli Eckdahl

The technology that our students use changes daily with versions, devices and connectivity. This school year proved to be a challenge for school leaders especially with rapidly evolving devices. This interactive presentation will talk about and focus on the leading technology trends that have evolved, arrived and will have a direct impact on instruction. Be prepared to use the little blue box!
