

8th Grade Timeline Activity Mr. Cook

Here is the first of our timeline activities that will help us organize and review the 20th century.

On your timeline from class (or you can make one)

1. Label the Presidents between 1870 –1960. You should do this along the timeline using the dates they were in office.
2. Place the following eras in the area above the timeline as I demonstrated in class:
 - a. Great Depression
 - b. World War I
 - c. Korean War
 - d. World War II
 - e. Jazz Age
3. Place at least FIVE more important dates between 1900 and 1960. They can be any of your choice, but be ready to defend in class why you said they were important!
