

8th Grade Quiz Review

Topics: Settlement of the West, Industrialization, and Labor Unions

Date Scheduled - Thursday, April 3, 2003

Textbook Chapters 19 & 20

Overview: This quiz will cover the work we have done over the last two weeks. Be sure to review the the text and the packet materials on the last two topics. **The data sheets will be very important! The people and terms from those sheets may appear on the quiz!**

The Quiz will contain

- 10 multiple choice
- 10 matching items
- 2 “challenge questions”

Here are specific things to review!

- Identify three groups of people who helped to settle the West.
- Why did these and other people move West?
- What impact did the Transcontinental Railroad on America and the West?
- What was the policy of the Federal Government toward the Native Americans in the 19th century?
- What technology helped farmers settle the West?
- Why did Wounded Knee take place?
- What problem did farmers face in the West?
- How did farmers try to solve these problems?
- What are the factors of production?
- Can you give examples of how American businessmen got these factors in the late 1800's?
- Make a list of five important businessmen who helped Big Business grow. For each of them, tell what type of business they were in.
- Identify ten inventions that were important to Americans during this time period. For each tell who invented it and why it was important!
- Why did Labor Unions start?
- What were three important labor unions for this time period? How were they the same? How were they different?
- What were the results of the Rise of Industrialization on the United States and the American People?
