What is PASS?

 PASS is a system that enables parents of children in grades K-12 to view a snapshot of their own child's School Master information from a confidential HTML web page online.

What Information is Provided?

The school will provide static student information for the following areas:

	Grades K-6	**Grades 7-12**
Attendance	X	X
Current Marks		X
GPA		X
Mark History		X
Schedule	X (Homeroom)	X
Test History		X
Vaccinations	X	X
School Calendar	X	X

This information will be extracted (weekly snapshot) from the school's student database and will be posted to the Web on a regular basis. PASS does not allow access to the District's School Master Student Information Program.

Attendance - Shows the student's period-by-period attendance since the first day of school.

Current Marks - Shows the student's marks for courses currently being taken.

GPA History - Shows the dates, GPA, points earned, attempts, credit earned, class rank, and class size.

Mark History - Shows the student's secondary mark history, including year, grade level, term, department, course title, teacher, final mark, and credit earned.

Schedule/Progress - Schedule shows all current schedule information for the student, including course, room, period, term, and teacher.

Test History - Shows the date, battery, sub-test, and score of tests the student has taken.

Vaccinations - Shows the student's vaccination history, including vaccination type, six dose dates, and vaccination status.

Calendar - Displays a month-by-month calendar of when school is in session.

The Benefits
Provide easier access for parents to view their own child's information
Improve school/home communication
