September 26, 2002

At the September 25th Board of Education Meeting, Board members reported on various activities they had attended over the last two weeks. Soccer games, High School visits and the Curriculum Council meeting were among some of those activities.

The High School Planning Team reported on their action plans for the upcoming year. One plan deals with the improvement of AIS services and the second with increasing the reading levels of students. The Building Principals all reported on opening activities in their individual Buildings. The Elementary School's opening assembly focused on the topic "Don't Belittle the Little Things." The Middle School reported on new teachers and the decrease in Restricted Work Room visits this Fall. The High School report also focused on new staff as well as the upcoming awarding of Old English W's.

Under Old Business, the Board discussed their sub-committee membership. They also defeated the appointments of Building Special Education Coordinators after a lengthy debate.

New Business included the appointment of Janann Phillips as Middle School Nurse. After an explanation of the newly passed State law on automatic defibrillators by the Superintendent, the Board approved a first reading of a policy dealing with their use.
