

NYS Initiatives Identified by RIC as Priorities

AIS (Academic Intervention Service)

How is your district addressing the needs of students who need AIS?
 What tests are you using to retest: Level 1, grade 4? Level 2?
 How are you differentiating among AIS and remediation, and special education services?

Best Practices /Benchmarking	Staff Development	Data Analysis – Multiple Measures	Academic Intervention Strategies
------------------------------	-------------------	-----------------------------------	----------------------------------

ASSESSMENTS

What other assessments is your district using to get a more complete picture of your students’ ability?
 How are you creating parallel tasks/assessments?
 Are you assessing students in other areas than the State?

Best Practices /Benchmarking	Staff Development	Data Analysis – Multiple Measures	Academic Intervention Strategies
------------------------------	-------------------	-----------------------------------	----------------------------------

MATH

How have you used the assessments to address student needs?
 How have you used the assessments to identify teacher needs?
 How have you used the assessments to modify curriculum and instruction?
 What has been successful? Under what circumstances?
 How are you preparing for Math A?
 How are you adjusting your accelerated program?
 How are you addressing HS scheduling?

Best Practices /Benchmarking	Staff Development	Data Analysis – Multiple Measures	Academic Intervention Strategies
------------------------------	-------------------	-----------------------------------	----------------------------------

REGIONAL DATA

How are you using data to identify student needs?

How are you acclimating your staff to using data?

What data has been helpful in identifying district needs?

What other data would your district like to have?

Best Practices /Benchmarking	Staff Development	Data Analysis – Multiple Measures	Academic Intervention Strategies
