

### **PROGRAMS FOR GIFTED & TALENTED STUDENTS**

The Board of Education believes that programs traditionally viewed for gifted and talented students greatly benefit the entire school programs and encourages programs which provide enrichment opportunities for students. The Board of Education encourages educational programs which challenge and promote the realization of individual potential in all students.

The Board of Education recognizes that the allocation of resources toward appropriate programs for students identified as gifted and talented is necessary, and must be done in a way that is educationally sound as well as cost effective, consistent with district efforts to develop a continuum of learning experiences for special gifts and talents of students.
