

MATH VOCABULARY

number line
place value
estimate
expanded notation
odd
even
first
middle
last
sum, addend
difference
number charts
rounding
decimals
positive
negative
whole number
predict
product
sequences
squared
addition
subtraction
multiplication
division, dividend, divisor
order
regrouping
digit
inequality
associative property
estimation
equal
equality
minuend
prime factor
multiples
common factors
least common multiple
greatest common factor
quotient
remainder
distributive property
order of operations
half

fractions
ratio
numerator
denominator
equivalent
metric
proper
improper
percent
mixed number
classified data
perimeter
polygon
plane figures
volume
symmetry
Celsius
Fahrenheit
similar
congruent
exponent
integer
commutative property
identity property
prime
composite
equation
variable
cubic measures
array
area
vertical
horizontal
axis
plot
formula
compare
interpret
frequency
reasonable
likeness
difference
certainty
uncertainty
results
tables

graphs
logic
statistical data
outcomes
frequency
tally
range
average (mean)
mode
median
diagrams
compass
protractor
probability
independent events
arrangements
combinations
dimensions
capacity
decimeter
measure
weigh
coordinate geometry
random
perpendicular
parallel
intersecting
vertex
ray
line
line segment
plane
angle
face
edge
prism
grid
chance
simplifying
reducing
proportion
