What is GASB 34

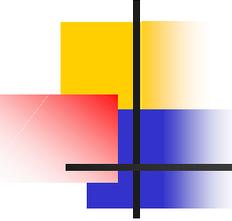

Manager

- ***GASB 34 Manager* is a tool used to assist schools with restating their financial reports so as to comply with new GASB-34 reporting requirements.**
- **The primary focus is to assist schools with converting their fund-level statements into entity-wide financials statements on a full accrual basis.**

What Does GASB 34 Manager Do?

- **Allows users to record journal entries necessary to produce entity-wide financial statements that are compliant with GASB-34 requirements without affecting the fund-level financial information.**
- **Assists with producing new GASB-34 reports such as the Statement of Net Assets and the Statement of Activities**

GASB-34 Manager

FINANCE MANAGER is the only software developer providing this urgently needed component of Governmental Financial Reporting.

Provides a flexible solution to enable each District to individualize the consolidation of their fund-level data for entity-wide statements.

Offers pro-forma journal entries to guide the District in converting from the modified accrual to full accrual basis of accounting.
