

Dear Linda

Here is Session 1. There will be Background/Introduction before this and that is coming in a day or two. Session 1 is a combination of the old Session 1&2. So there will be some errors in it I predict.

Some notes on how I have done things:

- Notes to you are indicated by a ##
- I have tried to make sure all the OHS are correctly numbered but this will need checking.
- New OHS for Session 1 are being faxed as Copy. I will try to sent them also as a text document in Word 5 and Pict file just in case.
- We have decided to have the OHs in the main text of the FM using the logo to indicate it. But also we need to either box these; or use different font or size font. I will leave this to you to play around with.
- The Instructional Strategies will not change so the page numbers should stay the same unless you change the font. If so then check all the page numbers for the IS.
- Copy of the Readings are to come. We will do this last as we are either rewriting articles or summarising them so that we own them and thus there will be no copyright clearances needed.
