

Role of the EduTech Steering Committee August 2000

Goals

- To create an effective communication system with our constituents.
- To develop a structure for providing continuous feedback and input from the constituents to EduTech.
- To establish the standards to measure continuous progress.
 - Measure the continued improvement of EduTech Services.
 - To select an appropriate pricing structure for the service
- To model the use of technology
- To provide for professional development of committee members.
- To increase the committee's focus on instructional application technology.
To assist school leadership in promoting the use of technology for
instructional support

Goals fall under five categories:

Communication, Planning and Assessment, Budget, Instructional Application, Professional Development

Prioritizing:

1. Budget
2. Communication
3. Planning and Assessment
